Hydrangea Arborescens Grandiflora (SNOWBALL HYDRANGEA)

The True Ever-blooming Forcing Variety, Not Hydrangea Cinerea.

ARBORESCENS GRANDIFLORA

(Snowball Hydrangea)

A grand addition to the summer flower ng hardy shrubs. Comes into bloom just at a time when there is a scarcity of outside white flowers, along through July and August. Makes a plant much like the common Hydrangea, but blooms with purest snow-white flowers, shaped much like the Snowball flower, but much larger and more attractive. Nothing in the hardy shrub line approaches it in freedom of bloom, duration of flower, and value as a cut flower, or as a plant for single specimens or groupings.

Price, strong two-and-one-half-inch pot plants, 50 cents per dozen; \$3.00 per hundred; \$25.00 per 1000. Three-and-one-half-inch stock, ten to twelve inches high, single stem, 60 cents per dozen; \$5.00 per hundred. Fifteen to eighteen inches, bushy, \$1.00 per dozen; \$8.00 per hundred. Eighteen to twenty=four inches, \$1.50 per dozen; \$12.00 per hundred.
